Comes Slow to the Democrats.

The National Congressional Committee Campaign Volume is Not Just Exactly a Bonanza.

How the Promoters Had to Refuse a Check for \$1,000 in Cash.

PAY FOR YOUR BOOK.

"To the Victors Belong the Spoils," or Why a Prominent Democrat Didn't Subscribe.

WASHINGTON, Sept. 17.—There is not so much good cheer at the national democratic congressional campaign headquarters as there was. Before the campaign book was published nearly all the chiefs of bureaus in the departments promised to subscribe for a dozen or more copies each, and the committee fully expected to sell at least 5,000 copies in the district. Since the publication of the work, however, the promises to buy have not realized worth a cent. The actual fact is that up to last night but eleven of the books had been sold in Washington. What is troubling the committee now is how they are going to raise the money to pay for the publication of the book and the salaries of the clerks employed in sending out democratic literature. While the book was being edited a prominent democrat proposed to pay \$1,000 for the privilege of one page in the book. He was asked what he desired to write. He said: "I only want to write one line to be printed on one page. It shall be good democratic campaign material." The proposition was accepted, and the next day the gentleman presented a certified check on Riggs & Co.'s bank for \$1,000 and a slip of paper upon which was written in a bold hand:

"To the victors belong the spoils." The member of the committee looked at the check, then at the sentence, scratched his head, returned both to the giver, saying: "I agree with you, but can not accept your proposal."

The prominent democrat tore up both check and paper upon which the famous matter was written, and walked out of the committee-room. He is immensely wealthy, and would not accept a cabinet position.

To be a Double Track.

CINCINNATI, Sept. 17.—Among the subjects for consideration at the coming annual meeting of the stockholders of the Cincinnati, Indianapolis, St. Louis and Chicago railroad, to be held at Indianapolis October next, is the project of double tracking the road between Indianapolis and Cincinnati. It is claimed traffic demands this improvement, and the opinion prevails here that it will be ordered.

Work of Wreckers.

SOUTH LYON, Mich., Sept. 17.—Early yesterday morning a loaded freight train was thrown from the track near here. Ed. Newman was killed, his body being terribly mangled. The brakeman, Campbell, was fatally injured, Thomas Davis, seriously injured. The engine and fifteen cars were completely wrecked.

This is Retribution.

St. Louis, Mo., Sept. 17.—The Knights of Labor acquitted of the charge of conspiracy against the Missouri Pacific railway company are about to file damage suits aggregating \$50,000 against the company for malicious prosecution.

A \$10,000 Steamer Sunk.

St. Louis, Mo., Sept. 17.—River steamer, C. C. Carroll, owned by Capt. D. H. Silver, of this city, bound for St. Louis from Kansas City, struck a snag Wednesday night at Chapman's landing and sunk. She will probably prove a total loss. She was valued at \$10,000.

Going to Ireland.

LONDON, Sept. 17.—The marquis of Londonderry will leave London to night for Ireland and will reach Dublin early to-morrow morning.

Charleston Rebuilding.

CHARLESTON, Sept. 17.—Bricklayers and plasterers are badly needed. The subsistence committee are now issuing rations to nearly 7,000 people, a large number of whom are colored.

## THE FAIR CLOSES.

A Bad Day for the Great Inter-State Exhibition and Its Visitors.

The third day of the great Inter-State fair would have called 15,000 or 20,000 people to its grounds, yesterday, if the rain had not threatened and finally prevented people from going out at all. There were between 4,000 and 5,000 people at the fair, and they amused themselves inspecting the inside show. The track was too soft and the air too moist for races, but the thousands present were delighted with the prettiest balloon race ever looked at anywhere. The air ships came right over the city, and one dropped near the MacDougal block, while the winner swept into Mr. Erasmus Shuman's lot, near Barr street. To-day opened cloudy, but the sky cleared off towards noon, and the races postponed yesterday were called to-day, thereby dismissing the races for Friday from the program. The association will lose money and considerable of it. The elements are alone to blame, and it is predicted that all bills and premiums of the fair will be paid. This day closes the great show, and if ever as fine a field of horses and exhibition stock were gathered in an exhibition ground in Indiana, we fail to recall the occasion.

## STRIKE IT RICH.

The Fort Wayne Syndicate Has a Gas Well near Muncie.

Several months ago a company was organized at Eaton, eleven miles north of Muncie, for the purpose of boring at that place for oil or natural gas. This company is composed of W. W. Worthington and Hon. R. C. Bell, of Fort Wayne, and Jesse Nixon, B. F. Carter and the Carter brothers, wealthy citizens of Eaton. Four weeks ago the drill was set to work, and at 9 o'clock last night gas was reached. The flow is very strong, and upon being ignited sent a flame in the air forty feet high. It is believed to be a paying well, and the people are greatly excited over the find. Large numbers of people are going from this city to-day to visit the well.

## READS LIKE A ROMANCE.

Life of a Black-Eyed Bavarian Maid at a Racine Convent and Her Flight to Fort Wayne.

This telegram is going the rounds of the press under the date of Milwaukee: "Francisca Maul, a pretty brunette of eighteen summers, came here from Chicago a few days ago and is now working in a tailor shop. She has a remarkable story to tell. She lived with her parents in Freysingen, Bavaria, where she formed the acquaintance of Rev. Karl Horns, a Catholic priest. According to her story, he painted to her and her sister the life in America, and especially that of a teacher in ladies' seminaries, in such glowing colors that both girls came here. They were received at the Dominican convent at Racine, in July, 1864. She alleges that they were forced to stay and became novitiates against their will, their money, about \$200, was taken from them, and that their hair was cut in spite of their protests. They were kept close prisoners, but her sister Barbara, eventually escaped to Chicago, and went from there to Fort Wayne, where she found employment in a hospital. Upon the instigation of her sister, her parents addressed themselves to the Sister Superior of the convent, and forwarded still more money for Francisca, but it was kept away from her. She recently escaped by adroit means and went to Chicago to search for her sister, but was unable to find her. She thinks now that her sister is here, and after finding her intends to bring suit against the Sister Superior at Racine, for detention and recovery of money alleged to have been taken away from her."

The first reunion of the Eighty-ninth Indiana volunteer infantry occurred at Kokomo yesterday, it being the twenty-fourth anniversary of the battle of Munfordville, the first battle in which this gallant regiment was engaged. The Eighty-ninth regiment was commanded by Colonel C. D. Murray, marched to the front one thousand strong in August 1862, and was mustered out in July, 1865, with four hundred men. Two hundred of these old heroes took part in the parade yesterday. The regiment, together with the Ninth Indiana battery, effected a permanent organization by electing the following officers for the ensuing year: President, Captain A. J. Hill, of Decatur; secretary, R. D. Patterson. The next reunion will be held at Decatur.

## LOCAL LINES.

The weather indications for Indiana are fair weather, and slightly cooler.

The case of Bowser vs. Bowser was fixed for trial before Judge O'Rourke this afternoon.

The superior court was in session this morning, with Hon. S. M. Hench presiding judge.

Mr. Pat O'Brien, of Huntington, is the guest of his brother, Street Commissioner Dennis O'Brien.

Some juvenile, with a select company, had the audacity to offer a hackman twenty cents to take them to the fair grounds yesterday.

A workman named Davis, employed by Freistroffer, the blacksmith, was stung with a bottle by a stable boy at the fair grounds yesterday.

Emma Abbott and Wm. Pruett were given flowers last night. Mr. Broderick got no flowers, but he can win the laurels from the party whenever he sings.

The Jenney electric light company, yesterday, sold a big city plant, at Le Roy, N. Y., and contracted to furnish private plants to the St. Louis car company, and parties at Fort Scott, Kan., and Vicksburg, Miss.

The Emma Abbott party left last night for Bay City, Mich. These theatrical people are superstitious and when en route absolutely refuse to take a hotel room numbered "13." They say it is an unlucky number.

There was a big fight at Christ Shafer's saloon last night, and this morning Mayor Muhler fined Christ Shafer and Bill Dunbar for assaulting Tom Overly. John McMonn was also mulcted for thumping Henry Binkler.

Adolph Figel, a section hand, was struck and badly injured by a locomotive in the Muncie yards this morning. He has a family and when the injured husband and father was carried home on a stretcher, there was untold grief.

Councilman Dennis Monahan is giving Dunlap hate away to-day. This liberality proceeds from the fact that a bright little councilman was born to the genial city dad yesterday and his friends wish the new born baby well in clouds of smoke from imported weeds.

Remonstrances were filed before the county commissioners to-day against the Ziemer ditch in Springfield township and against the Schwalb ditch in St. Joe township. Reviewers have been appointed on both claims. There was also a remonstrance against the Rockhill ditch in Lake township.

Before Judge Hench the case of O. B. Wiley vs. Oscar Beam, et al., on a foreclosure of ditch lien, on motion of plaintiff, was dismissed. In the suit of Elizabeth Mayer vs. Charles F. Mayer et al., on partition, there was a judgment of dismissal. Bettie Hobbs was granted a divorce from Veiah Hobbs.

Supt. John Wilkinson, of the county infirmary, filed his quarterly report for June, July and August, with the board of county commissioners yesterday. The cost of the institution for that time was but \$570.97. Mr. Wilkinson's displays ability, economy and kindly care for the unfortunate inmates in his official career.

Yesterday thieves got into the residence of Thomas Conway, who resides near New Haven, while the family were absent and stole three dogs, \$57 in gold and other articles aggregating in value \$91. John Culbert was arrested this morning as one of the thieves and Sheriff Nelson has him behind the iron bars. He had an accomplice and the officers are on his track.

Yesterday was "road day" in the county commissioners' court. John Culver petitioned for a road in Jackson township, and S. F. Baker, Rich Siegel and August Merril were appointed receivers. S. F. Swayne and others prayed for a road in Wayne township extending from the end of Indiana avenue.

Henry Stelhorn, Mike Woulfe and George Brackenkridge were selected as viewers. The viewers reported against the Kammeyer road, in Washington township, as it does not benefit the public.

Constable Will Case and Miss Josie Spear were married last evening. Mr. Case is popular with reporters. He pinned an old 50 cent confederate note on the marriage record, with a note attached, indicating its refreshment value. The anti-temperance newspaper men worked the paper and the good natured prohibition constable is around settling the bills. When Mr. Keator sees the bogus bill his eyes will swell and he will at once proceed to tap a fragrant box of Havannas. Everybody is for Constable Case, and the legendary slipper of lucky fame is tossed after the fair bride.

## AFRAUD!

A Bogus Count is Behind the Bars.

He Captures Florida as a Music Professor and Then Steals Jewels and Money.

There are More Troubles in Bulgaria and an Assassin is Abroad.

## A BOGUS COUNT.

He is Arrested for Larceny in Florida.

JACKSONVILLE, Fla., Sept. 17.—Carl Von Weller, a professor of music in this city, was arrested yesterday charged with larceny in stealing a large diamond ring, a sum of money and surgical instruments to the value of \$500. He came here a year ago, and claimed to have been a professor in the Cincinnati academy of music and a member of Theodore Thomas' orchestra, in New York. He also said he had a vineyard in California and was an Austrian Count living in cog. The property mentioned was found in his room at the hotel packed up.

## AN ASSASSIN

Attempts the Life of the Bavarian Prime Minister.

BUCHAREST, Sept. 17.—M. Bratiano, the Roumanian prime minister, was shot at last evening by an assassin. He perceived the man's intention in time to spring out of his aim. The brute wounded M. Robesco, a member of the chamber of deputies. The assassin was arrested and confessed that for political reasons, he intended to kill M. Bratiano. A crowd surrounded the building occupied by the only newspaper here which has been opposing the prime minister. They blamed the editor for keeping up a hostile feeling against him, and smashed all the furniture and fittings belonging to the concern. They savagely attacked and wounded two members of the staff and were proceeding to destroy the edifice, when the police became masters of the situation and dispersed the mob.

## A BIG FIRE.

A Philadelphia Business Block Burned.

PHILADELPHIA, Sept. 17.—A destructive fire broke out shortly after 2 o'clock this morning in the five-story brick building at 131 Market street, occupied by the wholesale grocery firm of Thompson, Frye & Co. Coates & Bros' wool-wen rooms in the rear of Thompson, Frye & Co's, were greatly damaged by fire and water. The loss on Thompson, Frye & Co's, building and stock is total. The fire is supposed to have been caused by an explosion of coal oil. The estimated total loss is \$60,000; insurance, \$10,000.

## EMMA ABBOTT.

A large and fashionable audience assembled at the Temple last evening to witness the rendition of Victor Masse's love lyric, "Paul and Virginia," by the Abbott company. In this opera Abbott is particularly fitted for the part of Virginia, and portrayed the character in a realistic manner. It was in this role that she became famous for the Abbott kiss. Michels, the Italian tenor, as Paul, made a most ardent lover in both voice and action. The great love duet was rendered most beautifully, as was also the bird song by Abbott which elicited great applause. The other characters, of which more could be said, assumed their different parts in an admirable manner, and the chorus was grand. With the exception of the cutting of several parts of the opera by Michels it was more successfully presented than any of the Abbott repertoire ever given before a Fort Wayne audience. It is apparent that Miss Abbott must attribute her artistic success more to the excellent people she has with her than her own voice, which is not sustained by the majestic grace one finds in great artists. She has a most excellent musical director and a splendid chorus and orchestra. All things considered Fort Wayne is musically pleased.

Miss Carrie Rose, daughter of Meyer Rose, of Lafayette, was yesterday wedded to Fred Smith, a merchant of Port Huron, Mich., against the protests of his mamma.

## THE FIRST THIRTEEN

States Will Celebrate the Centennial of the Promulgation of the Constitution.

PHILADELPHIA, Pa., Sept. 17.—As a result of the movement upon the part of the magistrates of the thirteen original states, seven governors of as many commonwealths met here to-day to arrange for a fitting observance of the centennial anniversary of the promulgation of the constitution of the United States. This will occur September 17, 1887. Ten states were represented. New Hampshire, Massachusetts and North Carolina, were not represented, but probably will be by to-morrow. The party marched to the old state house, and halted in the room where the declaration of independence was signed, and, standing under a canopy of red, white and blue, listened to an address of welcome by Mayor Smith.

## Pennsylvania Greenbackers.

HARRISBURG, Pa., Sept. 17.—The greenback labor convention was slimly attended. The following ticket was nominated: For governor, Robert J. Houston, of Lancaster; lieutenant governor, John Parker, of Schuylkill county; auditor general, Daniel S. Early, of Harrisburg; secretary of interior affairs, Seth H. Hoagland, of Mercer county; congressman-at-large, Dr. C. D. Thompson, of Venango county. T. F. Rynders was re-elected chairman of the state executive committee.

## Efforts to Release a Socialist.

THE HAGUE, Sept. 17.—Nieuwenhuis, the socialist, sentenced last June to solitary confinement for one year on conviction of having written and published articles designed to inflame the people against the king, appeared in court yesterday to appeal against the continuation of his sentence. His counsel offered a confession of Socialist beliefs that he and not Nieuwenhuis had written the articles, and the sworn statement of the prisoner that in his trial he admitted the articles as his in order to shield the innocent printer who otherwise would have been punished as the author of them. The prosecution refused to accept the grounds of appeal.

## The Stone Cutters Yield.

DETROIT, Sept. 17.—The building strike or lock-out is ended. The stonecutters yielded and went to work Tuesday. The bricklayers went out to support the stone cutters and their action caused them to follow suit. The bricklayers express great indignation at the stonecutters and builders. They propose to boycott every building in which non-union labor have been employed.

## Murder and Robbery.

St. Louis, Mo., Sept. 17.—A special from Vincennes, Ind., says: "John Schryock, a wealthy farmer living near Olney, Ill., was murdered, last night, by unknown men, who secured \$3,000 hidden in the farmer's house. After committing murder and robbery they burned the house."

## Business Failures.

New York, Sept. 17.—The business failures for the last seven days in the United States were 152, and in Canada, thirty-three.

## For Congress.

MEMPHIS, Tenn., Sept. 17.—The democrats of the 10th district nominated Jas. Phelan, proprietor of the Memphis Avalanche.

A fine two year old Morgan stallion, valued at \$500, owned by Morgan Thomas, from near New Haven, died of inflammation of the bowels at the fair grounds yesterday.

Horse thieves are raiding the stables of farmers in Lagro township, Wabash county, and the grangers have organized a society for mutual protection.

A soldiers' reunion will be held at Petersburg, September 29 and 30 and October 1. The reunion will be for all ex-union soldiers. One of the features of the program will be a prize drill—first prize, \$75; second, \$50; third, \$25. Exclusion rates on all railroads.

On Monday and Tuesday licenses to sell intoxicants in Winchester were issued to John Trimble, Alexander Swartz, Elisha Martin and Charles Clifford, Randolph county having temperance commissioners, all of these licenses were granted on appeal to the circuit court.

One hundred armed men and boys have William Carmichael surrounded in a big, thick woods, five miles west of Anderson. Carmichael is armed with a revolver and a double-barreled shot-gun, and swears he will die before he surrenders. He is charged with burning his brother's house, and is believed to be sane.

## LAMB!

Is Causing Discussion at Terre Haute.

His Opponents Issue a Circular Severely Criticizing His Actions.

Secretary Manning is Semi-Officially Announced as Retiring From the Treasury.

## STATE POLITICS.

Vigo County Soreheads Issue an Anti-Lamb Campaign Document.

TERRE HAUTE, Ind., Sept. 17.—The anti-Lamb democrats yesterday received from the printer 20,000 copies of a review of Mr. Lamb's career. The matter would fill five columns of the paper. It begins with an argument that no man is a political necessity. Then follows the story of his straddling the tariff question. It is shown that he failed to vote 109 times in his one term in congress. Among the measures on which he did not vote were the suspension of silver coinage, the electoral count bill, the Mexican pension bill and an oleomargarine bill. There are many bills of more or less importance. He is charged with repeatedly bolting the democratic ticket, with double dealing with clients and abusing the Germans and Irish. The charges against his private character are simply referred to in general terms. It is the intention of the "kickers" to distribute these circulars through the mails and by individual effort.

## SECRETARY MANNING.

Semi-Official Announcement that He Will Retire From the Treasury.

WASHINGTON, Sept. 17.—Assistant Secretary Fairchild, in an interview, said that from all he could gather he had grave doubt as to whether Secretary Manning would ever again assume charge of the treasury department. The matter, however, would finally be brought to a head when the president and Secretary Manning meet in Albany next week, on which occasion it would be discussed in all its bearings. Mr. Fairchild expressed much regret at the probable retirement of Mr. Manning from the cabinet, which would be occasioned, if at all, by his continued bad health.

Col. Charles S. Stewart, of the corps of engineers, was yesterday afternoon by direction of the president and at his own request placed upon the retired list.

JOHN M'BRIDE,  
The Democratic Nominee for Secretary of State in Ohio.

John McBride, the Democratic nominee for secretary of state, was born in Chippewa township, Wayne county, O., June 23, 1854. He was in the last legislature as a representative of the fifth of the workmen. He was lucky enough to get a common school education before he went into the mines digging coal. He served his time underground, and became prominent among his brethren as a young man of more than ordinary ability. He became a member of society for the amelioration of labor, and was 16 years old when he joined the Miners' Union. He progressed until, in 1882, he was elected president of the Ohio Miners' association, the strongest labor union in the state. He was re-elected by unanimous vote in 1882, 1884 and again in 1885. He was defeated for representative in 1881 by only sixty-three votes. He was re-elected and elected in 1883 by a majority of 1,506. Faithful to the interests of his brethren, he at once took a stand in the legislature as the champion of labor. He joined other workmen in the assembly in perfecting legislation which has given to the laboring classes more benefits than any legislature has ever given. During the terrible strike in the Hocking valley John McCabe was the busiest man in the state of Ohio. As president of the Miners' association he was kept busy night and day, and during the winter of 1885-86 he was almost constantly on his feet, and he held many important positions in that organization.

I have sold your medicine for rheumatism and neuralgia, Athrophore, and have just ordered more of it. I think it is the best remedy I ever sold for rheumatism and it gives entire satisfaction. A. F. Grabner, druggist, Warren, Ill.

**ADVICE TO MOTHERS.**—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19—today

Mrs. Woodworth's revival at Anderson, this state, closed last week with 194 converts. It is said to have been the biggest thing of the kind in the history of Madison county.

For several years I have suffered greatly from periodical returns of hay fever. At the suggestion of Covert & Cheever, druggists, I obtained Ely's Cream Balm and used a portion of it during a severe attack. I can cheerfully testify as to the immediate and continued relief obtained by its use. I heartily recommend it to those suffering from this or kindred complaints. (Rev.) H. A. Smith, Clinton, Wis.

GRACE GREENWOOD CHATS ABOUT MANY INTERESTING THINGS.

A Make-Believe Regicide—Exiled Claimants to Crowns—King Humbert in the Rain—About Titles of Nobility in the French Republic—They Cannot Survive.

[Special Correspondence.]  
MILAN, Sept. 1.—We have been having a little sensation in the regicide line. Last week a young soldier of good standing, a sergeant in the Eighty-eighth infantry, now stationed at Monza as guard of the king at his summer palace, attempted to commit suicide by discharging his fusil pump and square into his breast. By almost a miracle he escaped death, the ball not touching any vital part; yet if he lives he must be, they say, a "physical wreck," his right arm being paralyzed. When this would-be suicide was discovered, waiting in his room, in his pocket there was found a letter postmarked, "To his Majesty, Humbert, King of Italy," and running thus:

I have received a command to kill your majesty, but at the moment of action I have thought that your life is precious and that mine is dear only to my mother. I prefer, therefore, to kill myself. Before dying I commend to your majesty my poor mother.

FRANCESCO DE FRANCESCHI.  
On reading this letter, Humbert made a remark which spoke both of his courage and goodness of heart. He said: "This is a crazy fellow, who would render his suicide interesting." The king was, however, mistaken. Though when first interrogated, the sergeant had declared that the "removal" of Humbert was a "little job" laid out for him by a secret society of conspirators whose commands, in an hour of nihilistic infatuation, he had solemnly sworn to obey, he since has confessed that this story was an utter fabrication, and that he succeeded in giving his poor mother a claim on the generous charity of the king. As for the motive of his attempt on his own life, the inevitable "woman in the case," was not a good old lady, but a very naughty young one, whom, on a recent leave, he had met at Alano, his native town. It seems that a watch had been confided to his care, to take to a fellow soldier, which timepiece Signorina Delilah had taken a fancy to and gained possession of by some means, and Francesco, not being able to account for its disappearance, was on the eve of being denounced as a thief, disgraced and stripped of the sergeant's galloni, and preferred death. Perhaps it is a pity he could not have had his choice.

The son of Vittorio Emanuele does not score well. On the very day of that sensational event, while many about him were alarmed by the sergeant's letter, Humbert drove down to Milan in an open carriage, with no guards, and one attendant. It was on the day of our most terrible storm of the season. What a rain was that—pouring, pouring, plunging down. It looked, seen across the wide Piazza del Duomo, like a lake on end. Just when the tempest was at its height the king drove into the piazza, toward the royal palace. Some of his loyal subjects, sheltered under the colonnades, raised a shout of "Viva il Re!" and he, seeing himself found out, bowed in return, lifting his hat with his usual exceeding courtesy, baring his anointed head to the pelting flood—for that was a storm in which no stoutest umbrella could live. About an hour later he started back to Monza—still in the rain, still in an open carriage.

Yes, King Humbert knows, by experience, the peculiar perils which beset the best regulated royal families nowadays. "Uncas" lies the head that wears a crown—the only exceptions among present European monarchs being the infantile Alfonso, of Spain, and the imbecile Otto, of Bavaria—and yet how much he has to contend with! He is surrounded by a host of enemies, and he must wear that troublous and perilous circlet. Be-hold in France, or just now out of France, the four pretenders, all after that old crown which the republic has laid on the shelf, yet all posing as distinguished patriots, thinking only of redeeming their beloved country, lifting her from the slough of republican anarchy and cold bigotry to the new heights of imperial glory or Bourbon purity. They are ready and eager to lay themselves out on the altar of la patrie—they are as sacrificial lambs, bleating to be offered up. I thought, with many outsiders, that the government of M. Frey was of that worse thing than a crime, a blunder, or a new epoch, all these princes, till the indignant exiles went to "proclaiming" so furiously and foolishly, each fellow showing his hand for the proposed game of revolution.

Those Partisan arrows were dipped in the very venom of disaffection and sedition, and found their mark. Since these manifestations appeared, and since the English have welcomed "the illustrious exiles" with such ostentatious sympathy, I have hoped more ardently than ever that the French republic would continue to "hold the fort" against the two elder men and the two boys, who threaten her most directly. In the number of the pretenders is her safety, perhaps. The four busy B's may sting one another to death. I do not believe that the dainty Bourbon ladies will ever again really flourish in their native soil, water them with blood and manure them with bones as you will. They will be overthrown by the new democratic cereals, or perhaps choked with communistic and atheistic branbles and thistles. I believe the last Napoleonic throne was burned with the Tuilleries. If the present government has strengthened and not weakened itself by this throwing overboard of its former head and crest, and its new epoch of power and prosperity, its tendency must be more and more democratic. An able English writer says: "Titles of nobility cannot long survive in the French republic."

A member of the chamber of deputies aimed a deathblow at them not long since by cooly proposing that they should be sold in open market. According to his plan, plain citizens, by the payment of certain graduated sums to the government, could call themselves dukes, marquises, counts or barons. The old aristocracy of France is, after all, wise enough to meet the inevitable tide of change half way. It is no longer the "proud andughty" caste it once was.

# They're Not Sorry.

There is one thing nobody ever regrets—that is, the day they first adopted Parker's Tonic as their regular family medicine. Its range is so wide, and its good effects so sure, that nothing else, except good nursing, are needed in a great majority of cases. Buy it, try it, and afterwards it will not require any praise from us.

When Baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

# CONSTITUTIONAL CATARRH.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, it is only assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and infallible method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in its relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly relieves the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box Catarrhal Solvent and an Improved Inhaler, price, \$1.

## INTERNATIONAL YACHTING.

The Steps by Which the Modern Yacht has Developed.

Now that the American type of yacht has proved again the fleetest afloat, it is interesting to note the stages by which this degree of perfection has been reached. When racing vessels were first built it was unknown. But that such were in use by the northern nations of Europe is well attested. The sturdy old Norse chieftains were so proud of their boats that they insisted on being buried in them. Many of their graves have been unearthed with the hulls of their vessels in sufficient preservation to show that in shape they were as beautiful and perfect as anything we produce to-day for propelling with oars. When the Phoenicians and Arabians were contending for the India trade a model of sailing ship was developed which was strikingly similar to the old-time clipper ships, which came after. The fleets of these latter sailors, was sacrificed to the requirements of commerce.

The first yacht club on record was the Royal Cork Yacht club, organized in 1730. It demonstrated the necessity for speed of sharp bows and hollow garboards, instead of the bulging hulls that were common up to that time. Their yachts were richly carved and gilded. The next lesson the British admiralty learned in the art of building fast vessels was from the French smugglers, whose vessels could out sail the government vessels every time.

The first international yacht race of which we have any record was sailed at Bermuda in 1840, between the English cutter Pearl and the American yacht Brenda. The Brenda was victorious. It was the performance of the yacht America in the race around the Isle of Wight, in 1851, in which she distanced the sixteen competing yachts, that awakened mankind to the possible improvement in yacht modeling, and brought about a revolution in yacht building.

THE GALATEA AND MAYFLOWER.

The above sketch of the Galateas and Mayflower as they appeared in running before the wind in one of the recent races gives an excellent idea of the number of sails that are crowded on to a modern yacht, and also the beautiful curves the outlines of these sails assume when filled by the wind. It is in the shape, size and management of sails that the greatest improvements have been made of late years. In this both countries have made equal strides. But it is to the use of the Yankee centerboard that American yachts owe most of their superiority, and it is only by adopting it that crafts of other countries may successfully compete for the international challenge cup.

Aunt Susie Grubbs, of Miller township, Dearborn county, eighty-five years of age, last Saturday captured the prize at a picnic for being the best dancer.

Lingers yet—survives them all.

flesh lives in Indiana.

The Huntington Herald has this:  
"Next Tuesday evening, September 21,  
1886, Judge Taylor, of Fort Wayne, will  
deliver a temperance address at the  
tabernacle, Huntington, Ind., in which  
he will review the present situation in  
the light of the present party platforms  
and discuss generally the duty of tem-  
perance men. This will be a candid and  
fair discussion of this important ques-  
tion, and no one who can should fail to  
hear this gifted and able orator."

the Wabash shows an increase in earn-  
ings over the corresponding period of  
1885 of \$748,080.

There were fairs all along the line of  
the Wabash road this week, consequent-  
ly not a great many excursionists came  
in over that line.

The Wabash, in the month of August,  
hailed out of Indianapolis proper 1,611  
loaded cars, against 660 the correspond-

abandoned and the business transferred  
to Rushville by way of New Castle.

line.

Fort Wayne was snubbed at the Har-  
rison meeting at Indianapolis. Every  
other city in the state was represented

olis they have no use for Fort Wayne re-  
publicans.

21, and the proposition was at once ac-  
cepted by the home team. A good game  
can be expected."

St. Mary's township, Adams county,

B. White and his wife, of Fort Wayne,  
were in attendance at the reunion last  
Friday. This was their first visit to An-  
gola; and the captain expressed himself  
highly pleased with the appearance of  
town and its people."

The supreme court yesterday delivered  
an opinion declaring that the law im-  
posing a penalty of \$100 for failure to  
promptly deliver a telegram, was repeal-  
ed by the acts of 1885. This will put a  
stop to the numerous suits that have  
been instituted against telegraph com-  
panies in all parts of the state.

"George D. Ohnecht, deputy collector,  
of Fort Wayne, was in the city one day

Herald.

rather hot up that way in a short time,  
from indications now."

This Friday, Sept. 17th, at the Fort

The Angola Herald says: "Hon.  
Chas. A. Munson, the democratic nomi-  
nee for auditor of state, attended the re-  
union here last Friday evening and re-  
mained over night. Charles, as he is  
familiarly known, was cordially received  
by his comrades and by his many dem-  
ocratic friends in particular. Speaking of  
the political outlook, Mr. Munson says  
it is very encouraging, and that the dem-  
ocrats will carry the state without  
doubt."

The salvation army is still holding  
forth at the Holman street tabernacle,

Fitch, Meyer & Co.,  
of No. 34 Calhoun street, have under-  
taken to do the hat and gents furnishing  
goods trade of this section, and the  
crowded condition of their store yester-  
day leads our reporter to believe in  
their success. The stock of hats, caps,  
gents furnishing goods and notions  
carried by this well known firm is sec-  
ond to none in the state, and as they  
are agents for all the leading manu-  
facturers in their lines, they are recog-  
nized headquarters for the latest fash-  
ions in all goods worn or used by gen-  
tlemen. Fitch, Meyer & Co. desire to  
call especial attention at this time to  
their fine assortment of fine woolen un-  
derwear. Everyone is prone to delay  
too long the purchase of this class of  
goods, and wait until fall mists and rains  
or winter frosts have been the cause of  
colds that may result disastrously to  
health. Now is the time, and Fitch,  
Meyer & Co. is the place to buy.

found in northern Indiana. In stock,  
they carry everything from a grind stone

Comes Slow to the Democrats.

The National Congressional Committees Campaign Volume is Not Just Exactly a Bonanza.

How the Promoters Had to Refuse a Check for \$1,000 in Cash.

PAY FOR YOUR BOOK.

"To the Victors Belong the Spoils," or Why a Prominent Democrat Didn't Subscribe.

WASHINGTON, Sept. 17.—There is not so much good cheer at the national democratic congressional campaign headquarters as there was. Before the campaign book was published nearly all the chiefs of bureaus in the departments promised to subscribe for a dozen or more copies each, and the committee fully expected to sell at least 5,000 copies in the district. Since the publication of the book, however, the promises to buy have not realized worth a cent. The actual fact is that up to last night but eleven of the books had been sold in Washington. What is troubling the committee now is how they are going to raise the money to pay for the publication of the book and the salaries of the clerks employed in sending out democratic literature. While the book was being edited a prominent democrat proposed to pay \$1,000 for the privilege of one page in the book. He was asked what he desired to write. He said: "I only want to write one line to be printed on one page. It shall be good democratic campaign material." The proposition was accepted, and the next day the gentleman presented a certified check on Riggs & Co.'s bank for \$1,000 and a slip of paper upon which was written in a bold hand:

"To the victors belong the spoils." The member of the committee looked at the check, then at the sentence, scratched his head, remained both to the giver, saying: "I agree with you, but I can not accept your proposal." The prominent democrat tore up both check and paper upon which the famous motto was written, and walked out of the committee-room. He is immensely wealthy, and would not accept a cabinet position.

To be a Double Track. CHICAGO, Sept. 17.—Among the subjects for consideration at the coming annual meeting of the stockholders of the Cincinnati, Indianapolis, St. Louis and Chicago railroad, to be held at Indianapolis October next, is the project of double tracking the road between Indianapolis and Cincinnati. It is claimed that this improvement, and the opinion prevails here that it will be ordered.

Work of Wreckers. BIRMINGHAM, Sept. 17.—Early yesterday morning a loaded freight train was thrown from the track near here. Ed. Newman was killed, his body being terribly mangled. The brakeman, Campbell, was fatally and engineer, Thomas Davis, seriously injured. The engine and fifteen cars were completely wrecked.

This is Retribution. ST. LOUIS, Mo., Sept. 17.—The Knights of Labor acquitted of the charge of conspiracy against the Missouri Pacific railway company are about to file damage suits aggregating \$50,000 against the company for malicious prosecution.

A \$10,000 Steamer Sunk. ST. LOUIS, Mo., Sept. 17.—Rivers steamer, C. C. Carroll, owned by Capt. D. H. Silver, of this city, bound for St. Louis from Kansas City, struck a snag Wednesday night at Chapman's landing and sank. She will probably prove a total loss. She was valued at \$10,000.

Going to Ireland. LONDON, Sept. 17.—The marginals of London will leave London to night for Ireland and will reach Dublin early to-morrow morning.

Charleston Rebuilding. CHARLESTON, Sept. 17.—Bricklayers and plasterers are badly needed. The subsistence committee are now issuing rations to nearly 7,000 people, a large number of whom are colored.

## THE FAIR CLOSES.

A Bad Day for the Great Inter-State Exhibition and Its Visitors.

The third day of the great Inter-State fair would have called 15,000 or 20,000 people to its grounds, yesterday, if the rain had not threatened and finally prevented people from going out at all. There were between 4,000 and 5,000 people at the fair, and they amused themselves inspecting the inside show. The track was too soft and the air too moist for most, but the thousands present were delighted with the prettiest balloon race ever looked at anywhere. The air ships came right over the city, and one dropped near the MacDougal block, while the winner swept into Mr. Erasmus Shuman's lot, near Barr street. To-day opened cloudy, but the sky cleared off towards noon, and the races postponed yesterday were called to-day, thereby doubling the races for Friday from the program. The association will lose money and considerable of it. The elements are slow to blame, and it is predicted that all bills and premiums of the fair will be paid. This day closes the great show, and as it was a show field of horses and exhibition stock were gathered in an exhibition ground in Indiana, we fail to recall the occasion.

## STRIKE IT RICH.

The Fort Wayne Syndicate Has a Gas Well near Muncie.

Several months ago a company was organized at Muncie, eleven miles north of Muncie, for the purpose of boring at that place for oil or natural gas. This company is composed of W. V. Worthington and Hon. R. C. Ball, of Fort Wayne, and Jesse Nixon, B. P. Carter and the Carter brothers, wealthy citizens of Elkhart. Four weeks ago the drill was set to work, and at 9 o'clock last night gas was reached. The flow is very strong, and upon being ignited sent a flame in the air forty feet high. It is believed to be a paying well, and the people are greatly excited over the find. Large numbers of people are going from this city to-day to visit the well.

## READS LIKE A ROMANCE.

Life of a Black-Eyed Bavarian Maid at a Racine Convent and Her Flight to Fort Wayne.

This telegram is going the rounds of the press under the date of Milwaukee: "Francine Maier, a pretty brunette of eighteen summers, came here from Chicago a few days ago and is now working in a tailor shop. She has a remarkable story to tell. She lived with her parents in Freysingen, Bavaria, where she formed the acquaintance of Rev. Karl Hertz, a Catholic priest. According to her story, he painted to her and her sister the life in America, and especially that of a teacher in ladies' seminaries, in such glowing colors that both girls came here. They were received at the Dominican convent at Racine, in July, 1864. She alleges that they were forced to stay and become novices against their will, their money, about \$200, was taken from them, and that their hair was cut in spite of their protests. They were kept close prisoners, but her sister Barbara, eventually escaped to Chicago, and went from there to Fort Wayne, where she found employment in a hospital. Upon the instigation of her sister, her parents addressed themselves to the Sister Superior of the convent, and forwarded still more money for Francine, but it was kept away from her. She recently escaped by adroit means and went to Chicago to search for her sister, but was unable to find her. She thinks now that her sister is here, and after finding her intends to bring suit against the Sister Superior at Racine, for detention and recovery of money alleged to have been taken away from her."

The first reunion of the Eighty-ninth Indiana volunteer infantry occurred at Kokomo yesterday, it being the twenty-fourth anniversary of the battle of Munsterfortville, the first battle in which this gallant regiment was engaged. The Eighty-ninth regiment was commanded by Colonel C. D. Murray, marched to the front one thousand strong in August, 1862, and was mustered out in July, 1865, with four hundred men. Two hundred of these old heroes took part in the parade yesterday. The regiment, together with the Ninth Indiana battery, effected a permanent organization by electing the following officers for the coming year: President, Captain A. J. Hill, of Decatur; secretary, R. D. Patterson. The next reunion will be held at Decatur.

## LOCAL LINES.

The weather indications for Indiana are fair weather, and slightly cooler. The case of Bowser vs. Bowser was tried for trial before Judge O'Rourke this afternoon.

The superior court was in session this morning, with Hon. E. M. Bench presiding Judge.

Mr. Pat O'Brien, of Huntington, is the guest of his brother, Street Commissioner Dennis O'Brien.

Some juvenile, with a school company, had the audacity to offer a hackman twenty cents to take them to the fair grounds yesterday.

A workman named Davis, employed by Preistruffer, the blacksmith, was slung with a bottle by a stable boy at the fair grounds yesterday.

Emma Abbott and Wm. Pruett were given flowers last night. Mr. Broderick got no flowers, but he can win the laurels from the party whenever he sings.

The Jersey electric light company, yesterday, sold a big city plant, at Le Roy, N. Y., and contracted to furnish private plants to the St. Louis car company, and parties at Fort Scott, Kan., and Vicksburg, Miss.

The Banna Abbott party left last night for Bay City, Mich. These theatrical people are superstitious and when en route absolutely refuse to take a hotel room numbered "13." They say it is an unlucky number.

There was a big fight at Christ-Schaefer's saloon last night, and this morning Mayor Munier fined Christ-Schaefer and Bill Dauter for assaulting Tom Overly. John Molkman was also mulcted for thumping Henry Binker.

Adolph Fiegel, a section hand, was struck and badly injured by a locomotive in the Muncie yards this morning. He has a family and when the injured husband and father was carried home on a stretcher, there was untold grief.

Councilman Dennis Monahan is giving Dunlap hats away to-day. This liberality proceeds from the fact that a bright little councilman was born to the genial city last yesterday and his friends with the new born baby well in clouds of smoke from imported woods.

Remonstrance were filed before the county commissioners to-day against the Ziemer ditch in Springfield township and against the Schwalm ditch in St. Joe township. Revisors have been appointed on both claims. There was also a remonstrance against the Rockhill ditch in Lake township.

Before Judge Honoh the case of O. B. Wiley vs. Oscar Baum, et al., on a foreclosure of ditch lien, on motion of plaintiff, was dismissed. In the suit of Elizabeth Mayer vs. Charles F. Mayer et al., on partition, there was a judgment of dismissal, Bettie Hibbs was granted a divorce from Velish Hobbs.

Sept. John Wilkinson, of the county infirmary, filed his quarterly report for June, July and August, with the board of county commissioners yesterday. The cost of the institution for that time was \$670.97. Mr. Wilkinson's displays ability, economy and kindly care for the unfortunate inmates in his official career.

Yesterday thieves got into the residence of Thomas Conway, who resides near New Haven, while the family were absent and stole three dogs, \$57 in gold and other articles aggregating in value \$61. John Culbert was arrested this morning as one of the thieves and Sheriff Nelson has him behind the iron bars. He had an accomplice and the officers are on his track.

Yesterday was "road day" in the county commissioners' court. John Calver petitioned for a road in Jackson township, and S. F. Baker, Rich Stiegel and August Merrill were appointed road overseers. S. F. Swayne and others prayed for a road in Wayne township extending from the end of Indiana avenue. Henry Stethall, Mike Woulfe and George Backenridge were selected as viewers. The viewers reported against the Kammeyer road, in Washington township, as it does not benefit the public.

Countess Will Case and Miss Jessie Spar were married last evening. Mr. Case is popular with reporters. He played an old 50 cent forfeiter note on the marriage record, with a note attached, indicating its refreshment value. The anti-temperance newspaper men worked the paper and the good natured prohibitionist constable is around settling the bills. When Mr. Kentor sees the begins bill his eyes will swell and he will at once proceed to tap a fragment bar of Havanna. Everybody is for Constable Case, and the legendary slipper of lucky lane is tossed after the fair bride.

A Bogus Count is Behind the Bars.

He Captures Florida as a Music Professor and Then Steals Jewels and Money.

There are More Troubles in Bulgaria and an Assassin is Abroad.

## A BOGUS COUNT.

He is Arrested for Larceny in Florida.

JACKSONVILLE, Fla., Sept. 17.—Carl Von Weller, a professor of music in this city, was arrested yesterday charged with larceny in stealing a large diamond ring, a sum of money and surgical instruments to the value of \$500. He came here a year ago, and claimed to have been a professor in the Cincinnati academy of music and a member of Theodore Thomas' orchestra, in New York. He had been a violinist in California and was an Austrian Count living in cog. The property mentioned was found in his room at the hotel packed up.

## AN ASSASSIN.

Attempts the Life of the Bavarian Prime Minister.

BERLIN, Sept. 17.—M. Bradano, the Bavarian prime minister, was shot at last evening by an assassin. He received the man's intention in time to spring out of his aim. The brute wounded Mr. Bradano, a member of the chamber of deputies. The assassin was arrested and confessed that for political reasons, he intended to kill M. Bradano. A crowd surrounded the building occupied by the only newspaper here which has been opposing the prime minister. They blamed the editor for keeping up a hostile feeling against him, and smashed all the furniture and fittings belonging to the concern. They savagely attacked and wounded two members of the staff and were proceeding to destroy the edifice, when the police became masters of the situation and dispersed the mob.

## A BIG FIRE.

A Philadelphia Business Block Burned.

PHILADELPHIA, Sept. 17.—A destructive fire broke out shortly after 2 o'clock this morning in the five-story brick building at 131 Market street, occupied by the wholesale grocery firm of Thompson, Eysa & Co. Cates & Bros', woolware rooms in the rear of Thompson, Eysa & Co., were greatly damaged by fire and water. The loss on Thompson, Eysa & Co.'s building and stock is total. The fire is supposed to have been caused by an explosion of coal oil. The estimated total loss is \$50,000; insurance, \$10,000.

## EMMA ABBOTT.

A large and fashionable audience assembled at the Temple last evening to witness the rendition of Victor Meuse's new lyric, "Paul and Virginia," by the Abbott company. In this opera Abbott is particularly fitted for the part of Virginia, and portrayed the character in a realistic manner. It was in this role that she became famous for the Abbotts. Michelena, the Italian tenor, as Paul, made a most brilliant lover in both voice and action. The great love duet was rendered most beautifully, as was also the bird song by Abbott which elicited great applause. The other characters, of which more could be said, assumed their different parts in an admirable manner, and the chorus was grand. With the exception of the cutting of several parts of the opera by Michelena it was more successfully presented than any of the Abbotts repertoire ever given before a Fort Wayne audience. It is apparent that Miss Abbott must attribute her artistic success more to the excellent people she has with her than her own voice, which is not sustained by the majestic grace one finds in great artists. She has a most excellent musical director and a splendid chorus and orchestra. All things considered Fort Wayne is musically pleased.

Miss Carrie Rose, daughter of Mayor Ross, of Lafayette, was yesterday wedded to Fred Smith, a merchant of Fort Huron, Mich., against the protests of his mania.

## THE FIRST THIRTEEN

States Will Celebrate the Centennial of the Promulgation of the Constitution.

PHILADELPHIA, Pa., Sept. 17.—As a result of the movement upon the part of the magistrates of the thirteen original states, seven governors of as many commonwealths met here to-day to arrange for a fitting observance of the centennial anniversary of the promulgation of the constitution of the United States. This will occur September 17, 1887. Ten states were represented. New Hampshire, Massachusetts and North Carolina, were not represented, but probably will be by to-morrow. The party marched to the old state house, and halted in the room where the declaration of independence was signed, and, standing under a canopy of red, white and blue, listened to an address of welcome by Mayor Smith.

## Pennsylvania Greenbackers.

Houston, of Lancaster; lieutenant governor, John Parker, of Schuylkill county; auditor general, Daniel S. Early, of Harrisburg; secretary of interior affairs, Seth P. Houghton, of Mercer county; congressman-at-large, Dr. C. D. Thompson, of Venango county. T. P. Rynders was re-elected chairman of the state executive committee.

## Efforts to Release a Socialist.

THE HAGUE, Sept. 17.—Nieuwenhuis, the socialist, sentenced last June to solitary confinement for one year on conviction of having written and published articles designed to inflame the people against the king, appeared in court yesterday to appeal against the continuation of his sentence. His counsel offered a confession of Socialist beliefs that he and not Nieuwenhuis had written the articles, and the sworn statement of the prisoner that in his trial he admitted the articles as his in order to shield the innocent printer who otherwise would have been punished as the author of them. The prosecution refused to accept the grounds of appeal.

## The Stone Cutters Yield.

DETROIT, Sept. 17.—The building strike or lock-out is ended. The stonecutters yielded and went to work to-day. The bricklayers went out to support the stone cutters and their action caused them to follow suit. The bricklayers express great indignation at the stonecutters and builders. They propose to boycott every building in which non-union labor have been employed.

## Murder and Robbery.

ST. LOUIS, Mo., Sept. 17.—A special from Vincennes, Ind., says: "John Schryock, a wealthy farmer living near Olney, Ill., was murdered last night, by unknown men, who secured \$3,000 hidden in the farmer's house. After committing murder and robbery they burned the house."

## Business Failures.

NEW YORK, Sept. 17.—The business failures for the last seven days in the United States were 152, and in Canada, thirty-three.

One hundred armed men and boys, have William Carmichael surrounded in a big, thick woods, five miles west of Anderson, Carmichael is armed with a revolver and a double-barreled shot-gun, and swears he will die before he surrenders. ## LAMB!

Is Causing Discussion at Terre Haute.

His Opponents Issue a Circular Severely Criticizing His Actions.

Secretary Manning is Sent Officially Announced as Retiring From the Treasury.

## STATE POLITICS.

Vigo County Sorebushes Issue an Anti-Lamb Campaign Document.

TERRE HAUTE, Ind., Sept. 17.—The anti-Lamb democrats yesterday received from the printer 20,000 copies of a review of Mr. Lamb's career. The matter would fill five columns of the paper. It begins with an argument that no man is a political necessity. Then follows the story of his straddling the tariff question. It is shown that he failed to vote 109 times in his one term in congress. Among the measures on which he did not vote were the suspension of silver coinage, the electoral count bill, the Mexican pension bill and an oleomargarine bill. There are many bills of more or less importance. He is charged with repeatedly bolting the democratic ticket, with double dealing with clients and abusing the German and Irish. The charges against his private character are simply referred to in general terms. It is the intention of the "kickers" to distribute these circulars through the mails and by individual effort.

## SECRETARY MANNING.

Sent Official Announcement that He Will Retire From the Treasury.

WASHINGTON, Sept. 17.—Assistant Secretary Fairchild, in an interview, said that from all he could gather he had grave doubts as to whether Secretary Manning would ever again assume charge of the treasury department. The matter, however, would finally be brought to a head when the president and Secretary Manning meet in Albany next week, on which occasion it would be discussed in all its bearings. Mr. Fairchild expressed much regret at the probable retirement of Mr. Manning from the cabinet, which would be occasioned, if at all, by his continued bad health.

Col. Charles S. Stewart, of the corps of engineers, was yesterday afternoon by direction of the president and at his own request placed upon the retired list.

### INTERNATIONAL YACHTING.

The Steps by Which the Modern Yacht has Developed.

Now that the American type of yacht has proved again the fleetest afloat, it is interesting to note the stages by which this degree of perfection has been reached. When racing vessels were first built in America, they were in use by the northern nations of Europe as well as by the British. The sturdy old Norse chieftains were so proud of their boats that they insisted on being buried in them. Many of their graves have been unearthed with the hulls of their vessels in sufficient preservation to show that in shape they were as beautiful and perfect as anything we produce to-day for propelling with oars. When the Phoenicians and Arabians were contending for the trade of the world, the sailing ship was developed which was strikingly similar to the old-time clipper ships, which carried for the fastness of these latter sailors, was sacrificed to the requirements of commerce.

The first yacht club on record was the Royal Cork Yacht club, organized in 1720. It demonstrated the necessity for speed of sharp bows and hollow garboards, instead of the bulging hulls that were common up to that time. Their yachts were richly carved and gilded. The first of the British, actually learned in the art of building fast vessels was from the French smugglers, whose vessels could outstrip the government vessels every time.

The first international yacht race of which we have any record was called the Bermuda in 1846, between the English cutter Pearl and the American yacht Brenda. The Brenda was victorious. It was the performance of the yacht America in the race around the Horn of 1851, in which she outdistanced the sixteen competing yachts, that awakened the world to the possibilities of improvement in yacht building, and brought about a revolution in yacht building.

**THE GALATHEA AND MATTHEW.**

The above sketch of the Galathea and Matthew as they appeared in running before the wind in one of the recent races gives an excellent idea of the number of sails that are crowded on to a modern yacht, and also the beautiful curves the outlines of these sails assume when filled by the wind. It is in the shape, size and arrangement of sails that the greatest improvements have been made of late years. In this both countries have made equal strides. But it is to the use of the Yacht's engine that the American yachts owe most of their superiority, and it is only by adopting it that craft of other countries may successfully compete for the international challenges.

It expels every trace of impurity from the blood, and bestows new life and vigor upon every function of the body, enabling it to entirely overcome disease.

Fitch, Meyer & Co.,

of No. 31 Calhoun street, have undertaken to do the hat and goods furnishing goods trade of this section, and the crowded condition of their store yesterday leads our reporter to believe in their success. The stock of hats, caps, goods furnishing goods and notions carried by this well known firm is second to none in the state, and as they are agents for all the leading manufacturers in their lines, they are recognized headquarters for the latest fashions in all goods worn or used by gentlemen. Fitch, Meyer & Co. desire to call especial attention at this time to their fine assortment of fine woolen underwear. The elegant display made by H. J. Ash attracted considerable attention from the ladies. He had on exhibition numberless designs and makes of base burning heaters, among which were the Square Act Garland, the Sound Garland, and the "Purifier." These heaters are from the best manufacturers in the country, are plain and highly finished, and of all sizes. He also keeps in stock all kinds of wood and coal heating stoves, the Astral and Garland ranges, the best cooking ranges in the market, and which have had the largest number of sales of any range in northern Indiana. 11
